### By [Author's name]

The Labour Party has been rocked by an anti-Semitism crisis in recent years, leading to the suspension and eventual expulsion of an MP. This book provides a comprehensive account of the events, the key players involved, and the wider implications for British politics and society.

The crisis began in 2016, when Labour MP Naz Shah was suspended from the party after making anti-Semitic comments on social media. Shah was later reinstated, but the incident sparked a wider debate about anti-Semitism within the Labour Party.

In 2018, the Labour Party was accused of institutional anti-Semitism by a former party staffer. This led to a major investigation by the Equality and Human Rights Commission (EHRC), which found that the Labour Party had breached the Equality Act 2010.

The EHRC report was highly critical of the Labour Party's handling of anti-Semitism complaints. It found that the party had failed to provide adequate training on anti-Semitism, had not taken seriously the concerns of Jewish members, and had been too slow to discipline members who had made anti-Semitic comments.

The EHRC report led to the resignation of Labour Party leader Jeremy Corbyn. Corbyn was replaced by Keir Starmer, who has vowed to tackle anti-Semitism within the party.

The Labour Party's anti-Semitism crisis has had a profound impact on British politics. It has led to a loss of trust in the party among Jewish voters and has damaged the party's reputation internationally.

This book provides a comprehensive account of the Labour Party's anti-Semitism crisis. It is an essential read for anyone who wants to understand the events that have unfolded and the wider implications for British politics and society.
