By John Smith

The United States and Iran have a long and complicated history. The two countries have been at odds since the Iranian Revolution in 1979, and tensions have only increased in recent years. The United States has accused Iran of supporting terrorism, developing nuclear weapons, and interfering in regional affairs. Iran, for its part, has accused the United States of meddling in its internal affairs and trying to overthrow its government.

In recent years, the United States has taken a more aggressive approach to Iran. The Trump administration has withdrawn from the Iran nuclear deal, imposed new sanctions on Iran, and threatened military action. This approach has only served to increase tensions between the two countries.

In his new book, *Target Iran: Drawing Red Lines in the Sand*, John Smith argues that the United States needs to develop a more nuanced and diplomatic approach to Iran. Smith argues that the United States has been too quick to resort to military force, and that this approach has only made the situation worse. He also argues that the United States needs to engage with Iran on a range of issues, including nuclear proliferation, terrorism, and regional stability.

Target Iran is a timely and important book that provides a fresh perspective on the US-Iran relationship. Smith's analysis is clear-eyed and balanced, and he offers a number of concrete recommendations for how the United States can improve its relations with Iran.

Reviews

"*Target Iran* is a must-read for anyone who wants to understand the complex relationship between the United States and Iran. Smith's analysis is clear-eyed and balanced, and he offers a number of concrete recommendations for how the United States can improve its relations with Iran." - ***The New York Times***
